Art Unit 1762

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-32 and 43-45, drawn to an apparatus for curing floors with multiple wavelengths of ultraviolet radiation, classified in Class 118, subclass 620.

II. Claims 33-42, drawn to a process of applying liquids to floors then curing with ultraviolet radiation of at least two wavelengths, classified in Class 427, subclass 493.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group II and Group I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used for different processes, such as application to different surfaces such as a road, ground, driveway, sidewalk, etc. Also the apparatus does not apply the liquid coating which must be applied in the process. The method on the other hand need not use an apparatus with the required frame structure of the apparatus.

Art Unit 1762

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, or vice versa, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mathew Adams on 12/5/03 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Adams requested mailing of the restriction.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit 1762

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication should be directed to M. L. Padgett from Monday through Friday from about 8 A.M. to 4:30 P.M. at telephone number (571) 272-1425 and FAX #703 872-9306 (all official).
